

Roundhouse For Sale!

Are you looking for the right hillfort for you?

Then why not join us in the Iceni tribe of Suffolk. We have the best roundhouses in all of Britain!

All of our roundhouses are of the finest quality and built using the best quality goods. We build our roundhouses in groups to create hillforts as this protects our **community** from our enemies (like those **devilish** Romans). Our hillfort is constructed on top of the highest hill in the area for added **protection** and **security**.

Most of our roundhouses have been constructed from daub, which is a mixture of straw and mud (and in some cases animal dung). However, some **properties** have been made with large stones held together with clay.

Location, location, location...

Our location is just perfect. Next to the river, our hillfort is **ideal** for collecting water and fishing. It is also only a short walk from a large woodland, which is known in the area for its **superb** hunting. Who could ask for more?

Looking for a new **profession**?

There are many jobs available in the local area. Just take a look at the latest **opportunities** on offer ...

- **Blacksmith**
- Potter
- Woodworker
- Weaver
- Bronze worker
- Farmer

Join us now!

Are you worried about the cold winter nights?

- The roof is made from straw with mud placed on top to keep in the warmth, even on the coldest of nights.
- The fire in the centre of the room provides warmth, light and heat for cooking all year round.
- Any smoke from the fire can easily escape from the hole in the roof.

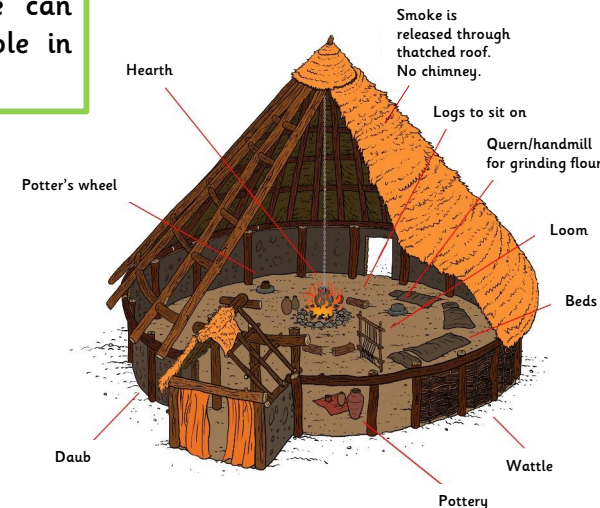

90% of Celts think that our new design is **superior** to all other models. Come and see for yourself!

I love my Iceni roundhouse. They really are the best! Buy it now before it is too late!

ONE TIME ONLY SPECIAL OFFER!

If you buy from us this month, your roundhouse will come complete with a large bronze **cauldron** which can be used to cook and heat water. **WOW!**

Amazing Features...

- Our roundhouses have no windows so none of that precious warm air can escape.
- The **spacious** room even has enough space for a loom which can be used to weave fabric for clothes and **decorative** items.
- There is also enough space to keep any of your animals inside at night. A wattle wall can be used to **confine** the animals to one area of the room.

Prices upon request.
