

Summer Curriculum Letter Year 5

Dear parents and children,

Welcome back to the summer term, the final term of year 5 and my favourite term. I hope you are all well rested and have enjoyed the time together over the Easter break. The children have settled back into the routine of school quickly and eager and ready to learn. They have already become keen chefs when making their soups this week and have pushed their boundaries when trying unfamiliar foods.

As always, we have a busy term ahead of us. Our new topic is 'Sow, Grow and Farm' In this topic the children will learn how farming in the UK and around the world and there is a topic web on the class page, along with knowledge organisers which gives you more information about all of the subjects covered this term. You will see that we will be covering puberty in PSHE and Science and after half term and I will share more information with you closer to the time.

I have also attached this term's #mylearning which can also be found on the class page alongside any accompanying worksheets. Thank you to you all for the outstanding commitment to their #MyLearning last term- the effort really supported their learning in class.

Alongside this please can you continue to read with your children daily and asking questions that develop their understanding of unfamiliar vocabulary. It is so important that the children understand what they are reading and to develop their reading comprehension skills. Spellings will continue as they did last term; times table tests will continue to take place on a Monday. Daily practise will help with practising and mastering.

PE will be on a Monday and Friday, can I please ask that the children have their full kits in school as the weather can turn chilly and the children become very cold. May I also ask that all their uniforms be labelled, whether that be a label or with a sharpie, as their clothes do go walkabout when they remove them.

The class webpage has a lot of information on including spellings, #mylearning as well as pictures of what the children have been up to each week, so please come and check out what we have been up to.

We are going to have a fabulous term, the children are already excited about some of the things we have coming up in our curriculum, and we look forward to sharing our learning with you.

If you have any questions, worries or concerns, please do not hesitate to contact me via the office email and I will endeavour to get back to you as soon as possible as I am aware there are some parents I do not get to see.

Let's have a great final term; I hope you enjoy learning about the farming locally and worldwide and thank you for your continued support.

Best wishes,

Miss Laker, Miss Trevillion, Mrs Jones and Mrs Herbert x
