1 Use the cards to sort the shapes.

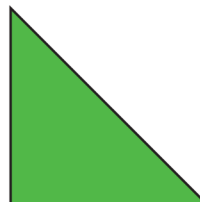

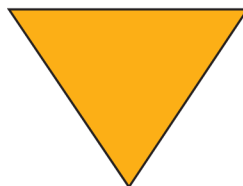

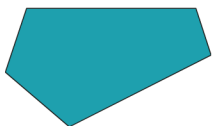

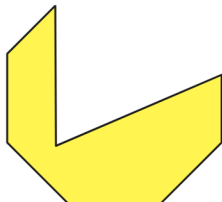

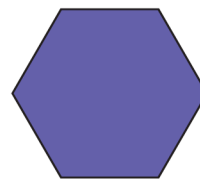

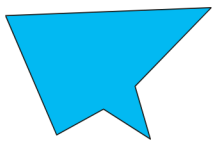

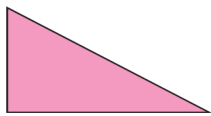

| 2-D shapes | 3-D shapes |
|------------|------------|
|            |            |

2 Tick the name of the shape.

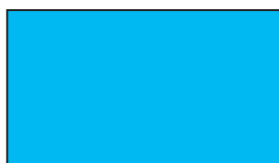

|         |           |          |        |
|---------|-----------|----------|--------|
| pyramid | rectangle | cylinder | cuboid |
|---------|-----------|----------|--------|

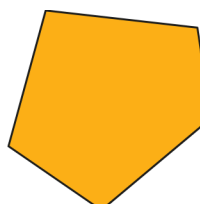

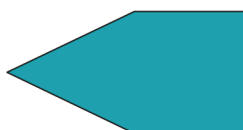

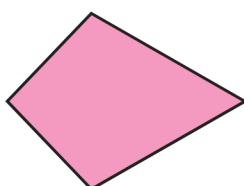

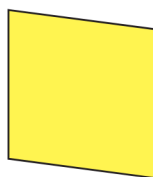

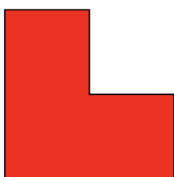

3 Circle all the triangles.

4 How many sides?

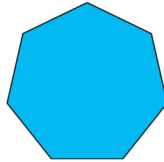

5 Circle the 6-sided shapes.

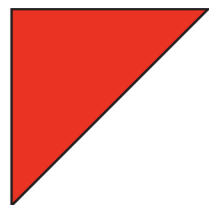

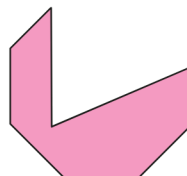

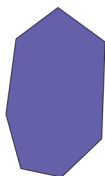

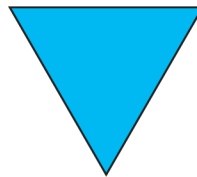

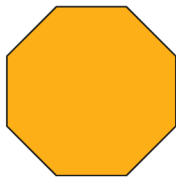

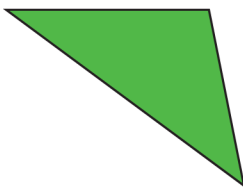

6 Complete the sentence.

An octagon has  sides.

7 How many vertices?

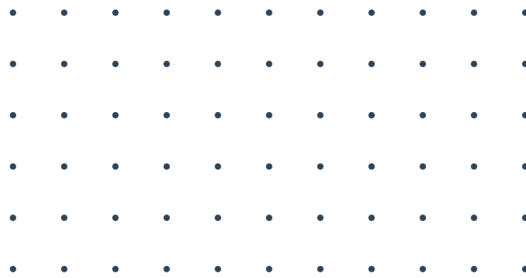

8 Circle the shapes with 3 vertices.

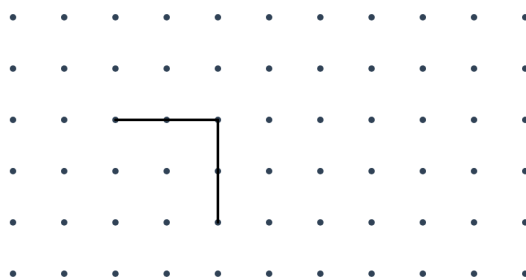

9 Complete the sentence.

A hexagon has  vertices.

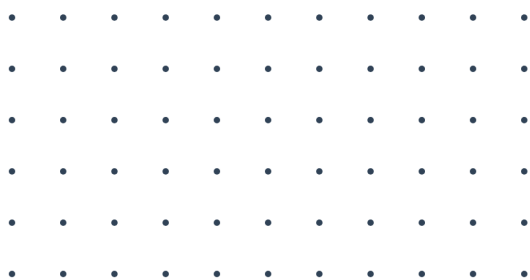

10 Draw a triangle.

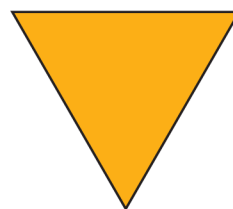

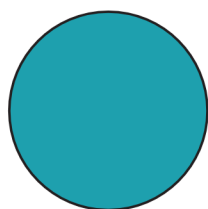

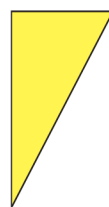

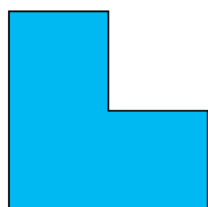

11 Complete the square.

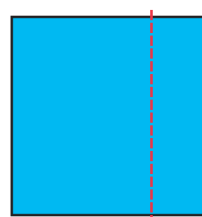

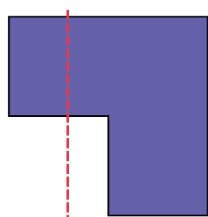

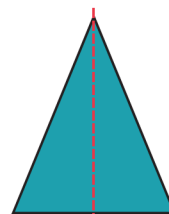

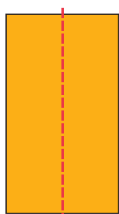

- 12 Draw a shape with 7 vertices.

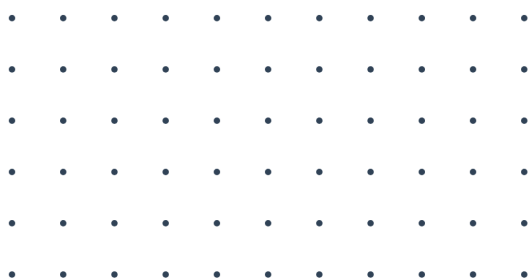

- 13 Tick the shapes with a vertical line of symmetry.

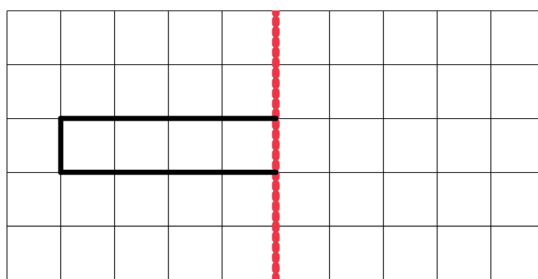

- 14 Tick the shapes with a correct vertical line of symmetry.

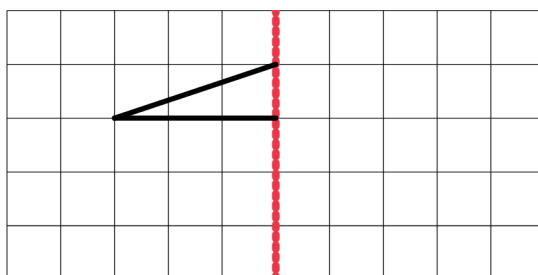

- 15 Draw a closed shape with a vertical line of symmetry.

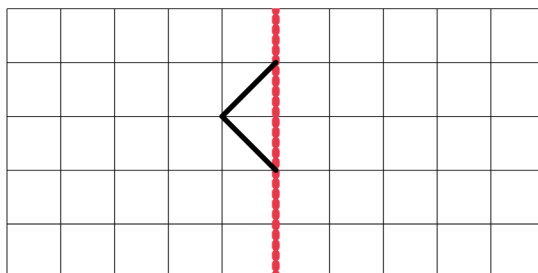

- 16 The diagram shows half a shape and a line of symmetry. Complete the shape.

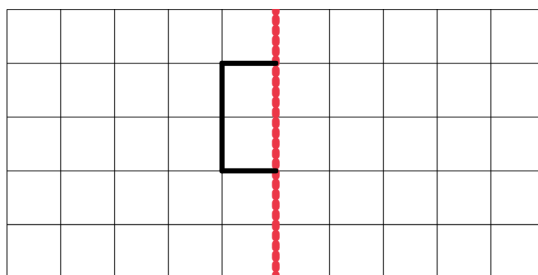

- 17 The diagram shows half a shape and a line of symmetry. Complete the shape.

- 18 The diagram shows half a shape and a line of symmetry. Complete the shape.

- 19 The diagram shows half a shape and a line of symmetry. Complete the shape.

- 20 The diagram shows half a shape and a line of symmetry. Complete the shape.
