

Year 4 Maths Activity Mat

3

Section 1

Write the next numbers in the sequence:

1000	1500	2000			
------	------	------	--	--	--

Section 2

If you are facing east and make a $\frac{3}{4}$ turn to the right, what direction will you be facing now?

Section 3

$$\begin{array}{r} 6 \quad 5 \quad 6 \quad 0 \\ + \quad 1 \quad 7 \quad 9 \quad 0 \\ \hline \end{array}$$

Section 5

Put the missing fractions on the number line.

Section 6

Write the distance in metres.

4.7km =

6.2km =

Section 7

Use < or > signs to make these statements true.

251 324 687 678

Section 4

Estimate the answer first, then work out the correct answer.

54 x 4

Estimate:

Working out and answer:

Section 8

Round these numbers to the nearest multiple of 10.

56 →

44 →

24 →

94 →

Year 4 Maths Activity Mat: 3

Answers

Section 1

Write the next numbers in the sequence:

1000	1500	2000	2500	3000	3500
------	------	------	-------------	-------------	-------------

Section 2

If you are facing east and make a $\frac{3}{4}$ turn to the right, what direction will you be facing now?

north

Section 3

$$\begin{array}{r} 6 \quad 5 \quad 6 \quad 0 \\ + \quad 1 \quad 7 \quad 9 \quad 0 \\ \hline 8 \quad 3 \quad 5 \quad 0 \end{array}$$

Section 5

Put the missing fractions on the number line.

Section 6

Write the distance in metres.

4.7km = 4700m

6.2km = 6200m

Section 7

Use < or > signs to make these statements true.

251

<

324

687

>

678

Section 4

Estimate the answer first, then work out the correct answer.

54 x 4

Estimate: **Realistic estimate e.g.**

200

Working out and answer:

216

Section 8

Round these numbers to the nearest multiple of 10.

56 → 60

44 → 40

24 → 20

94 → 90
