

Year 4 Maths Activity Mat

5

Section 1

Fill in the equivalent fractions.

$\frac{4}{5}$ is equal to

$\frac{3}{4}$ is equal to

Section 2

Divide each number by 10.

15 $\longrightarrow$

19 $\longrightarrow$

Section 5

Convert these:

14cm = mm

2kg = g

Section 6

Multiplication Pyramid:

Section 3

Complete the chain:

Section 7

Count back 5 from zero.

The answer is:

Section 8

Draw an isosceles triangle.

Section 4

Order the decimals from smallest to largest:

2.49 2.13 2.31 2.56 2.18

smallest				largest

Year 4 Maths Activity Mat: 5

Answers

Section 1

Accept other equivalents. E.g.

$$\frac{4}{5} \text{ is equal to } \boxed{\frac{8}{10}}$$

$$\frac{3}{4} \text{ is equal to } \boxed{\frac{6}{8}}$$

Section 2

Divide each number by 10.

$$15 \longrightarrow \boxed{1.5}$$

$$19 \longrightarrow \boxed{1.9}$$

Section 5

Convert these:

$$14\text{cm} = \boxed{140\text{mm}}$$

$$2\text{kg} = \boxed{2000\text{g}}$$

Section 6

Multiplication Pyramid:

Section 3

Complete the chain:

Section 7

Count back 5 from zero.

The answer is:

-5

Section 8

Draw an isosceles triangle.

Section 4

Order the decimals from smallest to largest:

2.49 2.13 2.31 2.56 2.18

2.13	2.18	2.31	2.49	2.56
------	------	------	------	------

smallest

largest
